### S. L. B. S. Intermediate College, Deoria

Intermediate - 60.1%

Dec 2015 - June 2017

### Kishan Intermediate College, Deoria

High School - 81%

Dec 2013 - June 2015

## PROJECTS

### Digital Agency ([View](#))

Jan 2024 - June 2025

- Developed a mobile-responsive frontend using **React.js**, applying modular component architecture and design consistency.
- Built a structured layout tailored for service-based offerings, emphasizing application development and branding appeal.
- Crafted intuitive navigation and engaging UI/UX to highlight services and client value propositions.
- Deployed the platform via **Vercel**, demonstrating proficiency with modern performance optimization.
- Designed conversion-driven visual elements aligned with industry standards for UX and interface aesthetics.
- Created the project as a live portfolio to showcase frontend capabilities across business domains, strengthening credibility in freelance and agency environments.

### Valentia Delivery ([View](#))

Jan 2024 - June 2025

- Developed the frontend of a delivery management platform using React.js, streamlining order placement, tracking, and delivery workflows.
- Integrated RESTful APIs to enable real-time updates for customers, drivers, and admins.
- Implemented secure authentication and role-based access using JWT on the frontend, ensuring protected routes and access control.
- Designed mobile-responsive and user-friendly UI/UX for customers and delivery personnel, resulting in a 25% increase in mobile usage.
- Built mobile-responsive UI/UX for both customers and delivery personnel, achieving consistent performance across devices and a 25% increase in mobile orders.
- Worked in agile sprints to deliver core features like delivery assignment, admin analytics, and order history, contributing to a 15% improvement in operational efficiency.
