EXPERIENCE

06/2024 -06/2025

Lucknow, India

React JS Developer

growmoretech.in
- Built role-based UIs with dynamic dashboards
- Integrated REST APIs for user and entity management (cars, courses, bookings)
- Added smart filters (price, location, brand) and search components.
- Developed booking flow with payment, cancellation, and refund features
- Designed and integrated custom dashboards for analytics, survey performance, and booking data.
- Created dashboards with survey analytics and booking insights
- Designed course/quiz modules with category filters and answer tracking

12/2022 - 05/2023

Lucknow, India

Web Developer Intern

Analyze Infotech
- Designed and developed user-friendly websites with responsive layouts.
- Created and optimized web pages using HTML, CSS, JavaScript python and Django.
- Developed and maintained enterprise-level web applications to enhance client experiences.
- Optimized code for better performance, security, and scalability.

PROJECTS

City Car

Short summary of my work
- Built complete admin (vendor) and user interfaces with seamless API integration in web platforms
- Developed vendor workflows: OTP login, profile management, car listing features, booking views, and invoice downloads
- Created user-facing components for registration, login, profile updates, car browsing with advanced filters, booking flow, payment handling, cancellations, and refund tracking
- Optimized UI/UX for performance, accessibility, and responsiveness across devices

Valentia Delivery

Short summary of my work
- Built a multi-role delivery platform with dashboards for Admin and Delivery Personnel
- Enabled management of milk types, bottle tracking, and delivery routes across regions
- Developed modules for order placement, real-time delivery updates, and bottle return logging
- Integrated QR code-based authentication and tracking for efficient inventory reconciliation
- Designed admin dashboard with analytics on delivery efficiency, bottle circulation, and customer feedback

Digital Agency

Short summary of my work
- **Responsive React UI** tailored for service-based businesses with clean, modular design
- User-focused UX **with intuitive navigation and visuals that boost engagement**
- **Live portfolio on Vercel** showcasing frontend skills and performance optimization
