SUMMARY

Results-driven Frontend Developer with 2+ years of hands-on experience building scalable, high-performance web applications using React.js and Next.js. Skilled in state management with Redux Toolkit, REST API integration, and delivering pixel-perfect, responsive UIs. Proven track record of optimizing application performance, reducing load times, and shipping production-ready features in fast-paced Agile environments. Passionate about clean code, component-based architecture, and building seamless user experiences.

SKILLS

Frontend Technologies: React.js, Next.js, JavaScript (ES6+), Typescript, HTML, CSS3

State Management: Redux Toolkit, Redux Thunk, Context API, Zustand,

Styling & UI: Tailwind CSS, Material UI (MUI), Bootstrap, Styled Components, SASS/SCSS

Tools & Workflow: Git, GitHub, REST APIs, Axios, Postman, Webpack, Vite, npm/yarn

Soft Skills: Problem Solving, Agile, Cross-functional Collaboration, Troubleshooting, Performance testing, Debugging, Webpack, User Interface Design, Web Applications

WORK EXPERIENCE

Frontend Developer (Next.js) | 4Tuners Technology, Greater Noida

Jul 2025 – Jan 2026

- Architected and delivered 3+ reusable React/Next.js components using App Router, reducing development time by 30% across the team.
- Implemented server-side rendering (SSR) and static site generation (SSG) with Next.js, improving page load speed by ~40% and boosting SEO scores.
- Integrated Redux Toolkit for centralized state management across complex multi-step workflows, eliminating prop-drilling and improving maintainability.
- Collaborated with backend engineers to design and consume RESTful APIs using Axios, ensuring robust error handling and loading state management.
- Led responsive UI implementation using Tailwind CSS and MUI, achieving 100% mobile-first compatibility across all targeted devices.
- Participated in code reviews and Agile sprint planning, consistently delivering features on schedule with zero critical post-release bugs.

React.js Developer | Growmoredigi Codebuilder, Lucknow

Jan 2024 – Jun 2025

- Built and maintained 5+ production-grade React.js SPAs for clients, covering e-commerce, content management, and service booking use cases.
- Optimized component re-renders using React.memo, useMemo, and useCallback, resulting in a 25% improvement in application runtime performance.
- Developed a reusable form validation library using React Hook Form and Zod, cutting form-related bug reports by 40%.
- Consumed and integrated third-party APIs (payment gateways, maps, notifications) with seamless UI feedback and error boundaries.

Web Developer Intern | Analyze Infotech, Lucknow

Aug 2022 – Dec 2022

- Assisted in building responsive landing pages and admin dashboards using HTML5, CSS3, JavaScript, and React.js.
- Fixed 20+ UI bugs identified during QA testing, improving overall application stability and user experience scores.
- Gained hands-on experience with REST API integration, version control (Git), and Agile development workflows.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering

May 2020 – Jun 2023

Khawaja Moinuddin Chishti Language University, Lucknow

CERTIFICATIONS

- React — The Complete Guide (Udemy) — React.js, Hooks, Redux, Next.js
- JavaScript Algorithms and Data Structures — freeCodeCamp
- Responsive Web Design Certification — freeCodeCamp
