## SUMMARY

I'm a React.js Developer with **2.5+ years** of hands-on experience working with **React.js, Redux Toolkit** and **REST APIs**. I focus on building scalable admin dashboards and enterprise web apps.

## SKILLS

**Frontend & UI:** React.js, Next.js, Redux Toolkit (RTK), Axios, JavaScript (ES6+), Typescript, PHP, React Router, Context API, React Hook Form, TanStack React Query, Tailwind CSS, Bootstrap, Responsive Design.

**Backend, Database & Tools:** Node.js, Express.js, RESTful APIs, JWT Authentication, MongoDB, Git, GitHub, Axios, Performance Optimization, Code Splitting, Lazy Loading, Memoization.

## WORK EXPERIENCE

**4Tuners Technology, Greater Noida**

July 2025 – January 2026

Frontend Developer

- Built scalable admin dashboards and enterprise web apps using React.js and Redux Toolkit, integrating REST APIs for analytics, role-based access, and user management.
- Implemented advanced search and filtering features (price, brand, size, variants) and developed analytics dashboards to track bookings and manage all Products.
- Collaborated with backend and UI/UX teams to deliver production-ready features, improving performance through memoization and lazy loading.

**Growmore Tech, Lucknow**

January 2024 – June 2025

React.js Developer

- Developed dynamic dashboards and role-based UIs with secure authentication to ensure seamless access control.
- Built reusable, responsive UI components using Material UI, Tailwind CSS, and Bootstrap with cross-browser support, while managing global state efficiently using Redux Toolkit and React Context API.

**Analyze Infotech, Lucknow**

August 2022 – December 2022

Web Developer Intern

- Designed and developed responsive, user-friendly web applications using HTML, CSS, and JavaScript, while implementing backend features with Python and Django.
- Enhanced application performance, security, and scalability while contributing to enterprise-level and client-facing solutions.

## EDUCATION

**Bachelor of Technology** – Computer Science and Engineering

Khawaja Moinuddin Chishti Language University, Lucknow

May 2020 – June 2023

## PROJECTS

- **E-Commerce Admin & User Platform:** Created a fully functional e-commerce platform with user and admin workflows for end-to-end management of orders, inventory, and products. For a seamless user experience, secure access control, sophisticated search and filtering, responsive design, and performance enhancements were implemented.
- **Valentia Milk Delivery Platform:** Order processing, delivery tracking, return logging, and route optimization are all handled by the delivery management platform that was built with distinct admin and delivery roles. Created analytics dashboards to track customer satisfaction, profitability, and delivery effectiveness.
- **Social Media App for Doctors and Patient:** Created a safe social network with role-based access that allows for content sharing and real-time communication between physicians and patients. Interactive posts and conversations were put into place to encourage cooperation between patient communities and physicians.
- **City Car – Admin & Vendor Platform:** I developed complete dashboards for both admins and vendors with smooth API integration. I implemented OTP-based authentication, profile management features, car listings, booking functionality, and invoice download capabilities. Additionally, I focused on optimizing performance while ensuring accessibility and full responsiveness across devices.
